Desert Mountain Club, Inc.
Scottsdale, AZ

ESTABLISHMENT:

Plant when soil temperatures are a consistent 65° F (18° C) or above at a rate of 3 pounds/1000 square feet. Prepare soil as per soil test recommendations, loosen & drag to level. Plant in full sun, no more than a 1/4" depth. Water to keep soil moist at approx 1/2" depth for 1-2 weeks. Deeper, infrequent water is desirable once turf is established. Please allow 4 to 6 weeks for full establishment.

MAINTENANCE:

Mowing may begin in 3-4 weeks. Do not cut more than 1/3 of the plant at each mowing. Fertilize with 1 - 1 1/2# of actual Nitrogen per 1000 sq feet per month of the growing season.

CHARACTERISTICS:

- ✓ Fast Germination For Quick Establishment
- ✓ Dark Green Color
- ✓ Fine to Superfine Density
- ✓ Uniform Texture
- ✓ Genetic Diversity
- ✓ Superior Seedling Vigor For Quick Recovery
- ✓ Superb Salt Tolerance
- ✓ Excellent Wear/Traffic Tolerance
- ✓ Low Water Use/Drought Tolerant
